Economic Development Committee

The St. Mary's Economic Development Committee has started to meet on a monthly basis to assist in the development of an Economic Development Action Plan for the municipality. Anyone interested in becoming a member of the committee or anyone with ideas, questions, concerns, or feedback regarding the projects above are encouraged to contact the Economic Development Officer, Stephen Novak, at Stephen.novak@saint-marys.ca or (902) 522-2607

Waterline Replacement Project Update

The Sherbrooke Water Utility is proceeding with the waterline replacement project. The project will consist of approximately 2.6 kilometers of new water line on the east side of the service area. It will run from the intersection of Main and Court Streets up Main and the Old Road Hill to the end of the existing line near the Department of Fisheries and Oceans building, Fourth Street (Sonora Road) from Number 7 to the end of the existing line, and Restoration Drive from the Number 7 to the end of Restoration Drive. Water service will continue in the old system until the new one is completed so there will be minimal disruption in water supply throughout the construction.

Survey work has been completed and design is nearing completion. Painted lines you may have noticed on the ground are showing where communication infrastructure and services are located to assist during construction. Tender documents and plans will be ready for a tender call in September and construction started in October with an anticipated completion by the end of December.

Paddle the St. Mary's River 2017

When: Sept 23, 10 AM, Back up day in case of rain Sept 30th

Where: St. Mary's River Access Point 1 to St. Mary's River Access Point 3. We will meet at access point 1 which is where the Denver Bridge crosses the St Mary's on the East Branch of the river.

Everyone is welcome you can bring your own Kayak or canoe or rent one from the Municipal Recreation Department. The paddle will be approximately 22 km and should take about 6 hours. Depending on weather, water levels and how many times we stop it may be longer. There are no class two water or above and you will find it mostly a gentle paddle. I would recommend this excursion to intermediate skilled paddlers and above.

The run takes us through Gunns Hole, Mckeens Pool, the Glenelg and Melrose Lakes, Silvers Pool, past the Cochrane Hill Gold Mine and much more. We will be getting out at access point 3 which is just after the Stillwaters begin on the Waternish Road.

Check out our interactive map located on the front of the SMRA Interpretive Center. For more information on the paddle contact the St. Mary's Recreation Department or the St. Mary's River Association at 522-2099 Hope to see you out on the River for a fun filled day!

Greetings from High-Crest Sherbrooke!

Residents celebrating birthdays this month are:

Rita Burns Sept. 16th

Garnita Peitzsche Sept. 19th

Happy Birthday Ladies! The homebuddies will be hosting a Bingo/Birthday party on September 12th. We will play bingo, sing some songs, and enjoy each other's company and some delicious cake and ice cream! Everyone is welcome! Hope everyone is enjoying their summer! We have been getting out on the bus and enjoying our outings! Thanks again to everyone who has supported our cause!

New Art Gallery in the Historic Sherbrooke Village

You are cordially invited to attend the Grand Opening of our New Art Gallery, the Cook House on 40 Back Street in Historic Sherbrooke Village. TIME: September 23rd, 2-4 pm. Works of Art by the members of the Sherbrooke Village Cooperative Art Gallery will be exhibited and for sale. Refreshments served.

Welcome to September on the St. Mary's River

This article will discuss the St. Mary's River in the context of being a "Paddler's Paradise", and this will conclude this year's SMRA article series for the newsletter

First I would like to invite you to stop by our Interpretive Center, just as you enter Sherbrooke on the left hand side, and have a look at our new "interactive" river map on the front of our building. When we say interactive, we are referring to the "QR codes" on the map. If you have an app on your phone or tablet that reads QR Codes, then you now have a wealth of information that can be available from a linked website. The QR Codes on our map are linked to information on the river pools and to the river access points for canoeists or kayakers.

This map provides a view of the Main branch, West branch and the East branch of the St. Mary's. The map does not cover the estuary, the North branch or the upper head waters of the river's East and West branches. The river is just too long for that. Did you know if you add up the distance of all the branches and the main river it's the longest river in Nova Scotia? Cool eh? To support this map, we are installing river side signs strategically located along the river's edge. The signs for Access sites 1, 3 and 4 are up and Access sites 2, 5 and 6 are still to come.

If you are paddling the East branch from Access site 1, you will soon see our river signs. The order in which you would come upon them are: Gunns Hole, Mckeens Pool, Paddlers Trail, Silvers Pool, Gold Mine, Clay Bank and the Graveyard Pool. Our goal is to have the signs in place by October 23, 2017 the date of our paddling event to show case the trail. If you would like to attend our first annual paddling event and want more information please call us at 522-2099.

Some of these river side signs will be removed and reinstalled every season, as we would not want to lose them with the spring thaw. Remember this sign project so far encompasses the East Branch but our future plans include the West branch.

Paddlers please note:

- The East Branch Paddlers Trail has cell coverage and the West Branch does not.
- The West Branch is mapped out on Canoe and Kayak Nova Scotia's mapping system but the East Branch is not.
- And the West Branch Maps designed by Canoe and Kayak Nova Scotia are available at our Interpretive Center and are very helpful if you are going to paddle it.

Since we are talking about the West Branch, I should mention that it's very low this season and you currently can't paddle it. But if at any time in the future you want to paddle it, you should view our data logger live water level reading on our web page at www.stmarysriverassociation.com/water-conditions.html. You need 2 feet of water to paddle this Branch. Let me tell you it's no fun dragging your boat over rocks. The first week of August the logger was only showing 6 inches. We are currently looking for a good location on the East Branch for another data logger and hopefully will be able to provide the same data as we have on the West Branch for you soon. That's all for now from the SMRA, I hope everyone had a very fun and exciting summer. I look forward to updating you next season on our efforts for 2018. Bye for now, Scott Beaver.
